### SPECIFICATION

The Examiner has objected to the disclosure because of "the use of acronym EPDM."

The Applicants are inserting a new replacement paragraph [0001] into the specification, which paragraph discloses the full term of the acronym EPDM in the application.

Support for the new replacement paragraph [0001] appears in the original paragraph [0001], as well as in Column 3, Lines 4-13, of U. S. Patent No. 7,050,263 (Kojima et al.).
